BERMUDA'S QUEST FOR GLOBAL PEACE AND TOLERANCE

Greetings and Salutations Readers,
First of all the team would like to wish you happy holidays!

This edition is full of pictures of youth that are really taking the lead and initiative in their life! We have features of the National Quiz, Teen Services Awards and the 3rd Annual Youth Conference. Congratulations to all of the youth that participated in these events!

Summer is around the corner and we welcome all of our readers to send in their applications to be a part of The Global Arts Entertainment summer youth events and workshops.

To start with we will need your name, age, contact information. This year we are also asking that you write a 50 word paragraph describing yourself and your hobbies.

For summer 2006 we have a full calendar of fun, including youth concerts and dances, marketing, webpage, photography and journalist work-shops!!

You can contact us at editor@youthnews.com.

This Day in History

On this day in history in 1997, Eldrick 'Tiger' Woods won the Masters Golf Tournament in Augusta, Georgia, by 12 strokes. It was considered to be the finest performance by a professional golfer this century and Tiger was only 21 years old. Groomed to be a pro golfer by his African-American father, he teed off against Bob Hope on a television show at the age of 2. Winning tournaments throughout his childhood and adolescence, Tiger played his first Masters in 1995. At the age of 24, he was the youngest player to win all 4 major golf championships the US Open, the British Open, the PGA Championship and the Masters. He is famous for wearing a red shirt for the final round of tournaments, a habit encouraged by his Thai mother who believed red was his power colour. With his talent and his genuine personality, Tiger Woods, has become a source of inspiration for a whole generation of young people.

This Month in History

Did you know, that in the month of April:

- Charlemagne was born in 742;
- The North Atlantic Treaty (NATO) was signed in 1949;
- The United States entered WWI in 1917;
- The S.S. Titanic sunk in 1912;
- Abraham Lincoln died in 1865;
- San Francisco was nearly destroyed by an earthquake and fire in 1906;
- Queen Elizabeth II was born in 1926;
- William Shakespeare died in 1616;
- The League of Nations was founded in 1919; and
- The sailors mutinied on the Bounty in 1789?

Who would have guessed!

There are approximately ten million bricks in the Empire State Building.

The lightning that we see actually goes from the ground to the sky in what is known as the "return stroke" at 1/3 the speed of light. We can't see the initial "stepped leader" that passes from the sky to the ground.
